This Agreement forms a legally binding contract between You and Intel Corporation ("Intel") regarding Your use of the Materials. By copying, installing, distributing, publicly displaying, or otherwise using the Materials, You agree to be bound by the terms of this Agreement. If You do not agree to the terms of this Agreement, do not copy, install, distribute, publicly display, or use the Materials.

If You are agreeing to the terms and conditions of this Agreement on behalf of a company or other legal entity ("Legal Entity"), You represent and warrant that You have the legal authority to bind that Legal Entity to the Agreement, in which case, "You" or "Your" will mean such entity.

By agreeing to this Agreement, You affirm that You are of legal age (18 years old or older) to enter into this Agreement. If You are not of legal age You may not enter into this Agreement, and either Your parent, legal guardian or Legal Entity must agree to the terms and conditions of this Agreement and enter into this Agreement, in which case, "You" or "Your" will mean such parent, legal guardian, or Legal Entity.

Third Party Programs (as defined below), even if included with the distribution of the Materials, are governed by separate third party license terms, including without limitation, open source software license terms. Such third party license terms (and not this Agreement) govern Your use of the Third Party Programs, and Intel is not liable for the Third Party Programs.

Intel may use this information, as long as it is in a form that does not personally identify You, to improve our products or to develop and provide services or technologies.

### 3. **LICENSE GRANT:**

3.1 Subject to the terms and conditions of this Agreement, and timely payment of any fees (if applicable), Intel grants You a non-exclusive, worldwide, perpetual (subject to Section 12 below), non-assignable (except as expressly permitted hereunder), limited right and license:

A. under its copyrights, to:

(1) reproduce internally copies of the Materials for your internal use in accordance with the documentation included as part of the Materials, and subject to the applicable license rights and restrictions specified in Section 4 below; provided, however, that this license does not include the right to sublicense and may only be exercised by You or Your employees and only within Your facilities;

(2) use the Materials solely for Your internal use to develop Your Product, in accordance with the applicable license rights and restrictions specified in Section 4 below and the documentation or text files included as part of the Materials; provided, however, that this license does not include the right to sublicense and may only be exercised by You or Your employees and only within Your facilities;

(3) modify or create derivative works of the Materials, or any portions thereof, that are provided in Source Code form, provided, however, that this license does not include the right to sublicense and may be exercised only by You or Your employees and only within Your facilities;

(4) publicly perform, display, and distribute (directly and through Your distributors, resellers and other channel partners) or otherwise make publicly available the Redistributables, including any modifications to or derivative works of the Redistributables made pursuant to Section 3.1.A(3), or any portions thereof, subject to the following restrictions:

(i) any distribution of the Redistributables must only be as part of Your Product which must add significantly more functionality than the Redistributables themselves;

(ii) any additional restrictions which may appear in the Redistributables text files specified in Section 1.H above and in Section 4 below; and

(iii) the license under Section 3.1.A(4) includes the right to sublicense the Redistributables, but the sublicense rights are limited to sublicensing of any Intel copyrights in the Redistributables and only to the extent necessary to perform, display, and distribute the Redistributables (including Your modifications and derivative works thereto) solely as incorporated in Your Product. **IF YOU RECEIVED THE MATERIALS FOR EVALUATION, HOWEVER, YOU HAVE NO RIGHTS TO DISTRIBUTE THE REDISTRIBUTABLES, INCLUDING WITHOUT LIMITATION, ANY PORTIONS, MODIFICATIONS OR DERIVATIVE WORKS.**

and

B. under Intel's Licensed Patent Claims, to:

(1) make copies of the Materials internally only;

(2) use the Materials internally only; and

(3) offer to distribute, and distribute, but not sell, the Redistributables only as part of Your Product, under Intel's copyright license granted in Section 3.1(A), but only under the terms of that copyright license and not as a sale (but this right does not include the right to sublicense);

(4) provided, further, that the license under the Licensed Patent Claims does not and will not apply to any modifications to, or derivative works of, the Materials, whether made by You, Your customer (which, for all purposes under this Agreement, will mean either a customer, reseller, distributor or other channel partner), or any third party even if the modification and derivative works are permitted under 3.1(A)(3).

3.2 If the Materials You receive are packaged, as a single orderable item (i.e., as a single SKU), with hardware that includes one or more Intel manufactured microprocessors ("Intel Target Hardware"), then the licenses granted in Section 3.1 above are restricted to the sole purpose of producing and releasing Your Product to execute on computer systems that include the same or new versions of the Intel manufactured microprocessor included in the Intel Target Hardware.

Intel expressly does not grant You a patent license in this Agreement to any modifications or derivative works of the Materials, whether made by You, Your contractor, Your customer, or any other third party in creating the derivative works even to the extent creation of derivative works is permitted under Section 3.1(A)(3) above.

#### 4. LICENSE CONDITIONS:

- A. If You are an entity, each of Your employees and Your contractors may use the Materials as specified in Section 3 above, provided: (i) their use of the Materials is solely on behalf of and in support of Your business, (ii) they agree to the terms and conditions of this Agreement, and (iii) You are solely responsible for their use of the Materials.
- B. If Your Product is a software development library, then attribution (if any), as specified in the product release notes of the corresponding Materials shall be displayed prominently in Your Product's associated documentation and on the web site (if any) for Your Product.
- C. If You receive Your first copy of the Materials electronically, and a second copy on media, then you may use the second copy only in accordance with Your applicable license stated in this Agreement, or for backup or archival purposes. You may not provide the second copy to another user.
- D. If the Materials You received are identified as Pre-Release Materials, You have the right to use the Pre-Release Materials only for the duration of the pre-release term, which is specified in the product release notes, on Intel's download website for the Materials or elsewhere, or until the commercial release, if any, of the Pre-Release Materials, whichever is shorter.
- E. Notwithstanding anything to the contrary in this Agreement, if the Materials include the text file named "site\_license\_materials.txt" the files specified in that text file may be installed on computer systems located only at a single site (unless multiple sites are specified in the purchase order accepted by Intel or its resellers), and those files may be accessed or used by unlimited and simultaneous users, subject to their compliance with all of the terms and conditions of this Agreement.
- F. Except as expressly provided in this Agreement, You may NOT: (i) use, copy, distribute, or publicly display the Materials; (ii) rent or lease the Materials to any third party; (iii) assign this Agreement or transfer the Materials; (iv) modify, adapt, or translate the Materials in whole or in part; (v) reverse engineer, decompile, or disassemble the Materials; (vi) attempt to modify or tamper with the normal function of any license manager that may regulate usage of the Materials; (vii) distribute, sublicense or transfer the Source Code form of any components of the Materials or derivatives thereof to any third party; (viii) distribute Redistributables except as part of a larger program that adds significant primary functionality different from that of the Redistributables; (ix) distribute the Redistributables to run on a platform other than a Microsoft Platform if according to the accompanying user documentation the Materials are meant to execute only on a Microsoft Platform; (x) include the Redistributables in malicious, deceptive, or unlawful programs or products; or (xi) modify, create a derivative work, link, or distribute the Materials so that any part of it becomes subject to an Excluded License.
- G. The scope and term of Your license depends on the type of license You are provided by Intel. The variety of license types are set forth below, which may not be available for all "Intel(R) Software Development Products" and therefore may not apply to the particular Materials You are licensing. For more information on the types of licenses, please contact Intel or Your sales representative.
  - i. **EVALUATION LICENSE:** If You obtained the Materials pursuant to an evaluation license, You may use the Materials only for internal evaluation purposes and only for the term of the evaluation period, as specified on Intel's download website or which may be controlled by the license key for the Materials. NOTWITHSTANDING ANYTHING TO THE CONTRARY ELSEWHERE IN THIS AGREEMENT, YOU MAY USE THE MATERIALS ONLY FOR EVALUATION PURPOSES AND ONLY FOR THE TERM OF THE EVALUATION, YOU MAY NOT DISTRIBUTE ANY PORTION OF THE MATERIALS, AND THE APPLICATION AND/OR PRODUCT DEVELOPED BY YOU MAY ONLY BE USED FOR EVALUATION PURPOSES AND ONLY FOR THE TERM OF THE EVALUATION. You may install copies of the Materials on a reasonable number of computers to conduct Your evaluation provided that You are the only individual using the Materials and only one copy of the Materials is in use at any one time. A separate license key is required for each additional use and/or individual user in all other cases, including without limitation, use by persons, computer systems, and other use methods known now and in the future. Intel may provide You with a license key that enables the

Materials for an evaluation license. If You are an entity, Intel grants You the right to designate one individual within Your organization to have the sole right to use the Materials in the manner provided above.

- ii. **NONCOMMERCIAL USE LICENSE**: If You obtained the Materials under a noncommercial use license, You may use the Materials only for non-commercial use where You receive no fee, salary or any other form of compensation. The Materials may not be used for any other purpose, whether "for profit" or "not for profit." Any work performed or produced as a result of use of the Materials cannot be performed or produced for the benefit of other parties for a fee, compensation or any other reimbursement or remuneration. You may install copies of the Materials on an unlimited number of computers provided that You are the only individual using the Materials and only one copy of the Materials is in use at any one time. A separate license is required for each additional use and/or individual user in all other cases, including without limitation, use by persons, computer systems, and other methods of use known now and in the future. Intel will provide You with a license key that enables the Materials for a noncommercial-use license. If You obtained a time-limited noncommercial-use license, the duration (time period) of Your license and Your ability to use the Materials is limited to the time period of the obtained license, which is specified on Intel's download website, specified in the applicable documentation or controlled by the license key for the Materials.
  - iii. **NAMED-USER LICENSE**: If You obtained the Materials under a named-user license, You may allow only one (1) individual to install and use the Materials on no more than three (3) computers provided that same individual is using the Materials only on one (1) computer at a time. If You obtained a time-limited named-user license, the term of Your license and your ability to use the Materials is limited to the time period of the obtained license, which is specified on Intel's download website, specified in the applicable documentation or controlled by the license key for the Materials.
  - iv. **NODE-LOCKED LICENSE**: If You obtained the Materials under a node-locked license, You may use the Materials only on a single designated computer by no more than the authorized number of concurrent users. If You obtained a time-limited node-locked license, the term of Your license and Your ability to use the Materials is limited to the time period of the obtained license, which is specified on Intel's download website, specified in the applicable documentation or controlled by the license key for the Materials.
  - v. **FLOATING LICENSE**: If You obtained the Materials under a floating license, you may (a) install the Materials on an unlimited number of computers that are connected to the designated network and (b) use the Material by no more than the authorized number of concurrent individual users. If You obtained a time-limited Floating license key, the term of Your license and Your ability to use the Materials is limited to the time period of the obtained license, which is specified on Intel's download website, specified in the applicable documentation or controlled by the license key for the Materials.
- H. **DISTRIBUTION**: Distribution of the Redistributables is also subject to the following limitations: You (i) will be solely responsible to Your customers for any update, support obligation or other liability which may arise from the distribution, (ii) will not make any statement that Your Product is "certified" or that its performance is guaranteed by Intel, (iii) will not use Intel's name or trademarks to market Your Product without written permission from Intel, (iv) will provide the Redistributables subject to a license agreement that prohibits disassembly and reverse engineering of the Redistributables except in cases when you provide Your Product subject to an open source license that is not an Excluded License, for example, the BSD license, or the MIT license, (v) will indemnify, hold harmless, and defend Intel and its suppliers from and against any claims or lawsuits, including attorney's fees, that arise or result from Your modifications, derivative works or Your distribution of Your Product.
- I. **INTEL(R) INTEGRATED PERFORMANCE PRIMITIVES ("INTEL IPP")**. The following terms and conditions apply only to the Intel IPP.

- i. Notwithstanding anything in this Agreement to the contrary, if You implement Intel IPP Sample Source Code in Your Product or if You use Intel IPP to implement algorithms that are the intellectual property of third parties, then you may need additional licenses from such entities. Should any such additional licenses be required, You are solely responsible for obtaining any such licenses and agree to obtain any such licenses at Your own expense.
  - ii. Notwithstanding anything herein to the contrary, a valid license to Intel IPP is a prerequisite to any license for Intel IPP Sample Source Code, and possession of Intel IPP Sample Source Code does not grant any license to Intel IPP (or any portion thereof). To access Intel IPP Sample Source Code, You must first register Your licensed copy of the Intel IPP with Intel. By downloading, installing or copying any Intel IPP Sample Source Code file, You agree to be bound by terms of this Agreement.
- J. **MEDIA FORMAT CODECS AND DIGITAL RIGHTS MANAGEMENT.** You acknowledge and agree that your use of the Materials or distribution of the Materials with Your Product as permitted by this license may require you to procure license(s) from one or more third parties that may hold intellectual property rights applicable to any media decoding, encoding or transcoding technology (such as, for example, through use of an audio or video codec) and/or digital rights management capabilities of the Materials, if any. Should any such additional licenses be required, You are solely responsible for obtaining any such licenses and agree to obtain any such licenses at Your own expense.
- K. **MATERIALS TRANSFER:** Except for the Pre-Release Licenses or Evaluation Licenses or Non-Commercial Licenses, as specified above, You may permanently transfer the Materials you received pursuant to a license type listed in Section 4(G) above, and all of Your rights under this Agreement, to another party ("Recipient") solely in conjunction with a change of ownership, merger, acquisition, sale or transfer of all or substantially all of Your business or assets, either voluntarily, by operation of law or otherwise subject to the following: You must notify Intel of the transfer by sending a letter to Intel (i) identifying the legal entities of Recipient and You, (ii) identifying the Materials (i.e., the specific Intel software and version) and the associated serial numbers to be transferred, (iii) certifying that You retain no copies of the Materials or portions thereof, (iv) certifying that the Recipient has agreed in writing to be bound by all of the terms and conditions of this Agreement, (v) certifying that the Recipient has been notified that in order to receive support from Intel for the Materials they must notify Intel in writing of the transfer and provide Intel with the information specified in subsection (ii) above along with the name and email address of the individual assigned to use the Materials, and (vi) providing Your email address so that Intel may confirm receipt of Your letter. Please send such letter to:

Intel Corporation

Hillsboro, OR 97124  
Attn: DPD Contracts Management, JF1-15

5. **PRIVACY:**

- A. **Data Collection:** Intel has collected or will collect certain personal information from You in order to inform You of updates to the Materials, based on the personal information collected when You registered the license to the Materials with Intel.
  - B. **Revoking Consent to Data Collection:** You can revoke Your consent to this collection of personal information at any time by clicking on the link to "unsubscribe" at the bottom of any communication from Intel related to the Materials which will allow You to opt-out of receiving future messages related to the Materials.
  - C. **Intel's Privacy Notice:** Intel is committed to respecting Your privacy. To learn more about Intel's privacy practices, please visit <http://www.intel.com/privacy>.
6. **OWNERSHIP:** Title to the Materials and all copies thereof remain with Intel or its suppliers. The Materials are protected by intellectual property rights, including without limitation, United States

copyright laws and international treaty provisions. You will not remove any copyright or other proprietary notice from the Materials. You agree to prevent any unauthorized copying of the Materials. Except as expressly provided herein, no license or right is granted to You directly or by implication, inducement, estoppel or otherwise; specifically Intel does not grant any express or implied right to You under Intel patents, copyrights, trademarks, or trade secrets.

7. **NO WARRANTY AND NO SUPPORT: Disclaimer.** Intel disclaims all warranties of any kind and the terms and remedies provided in this Agreement are instead of any other warranty or condition, express, implied or statutory, including those regarding merchantability, fitness for any particular purpose, non-infringement or any warranty arising out of any course of dealing, usage of trade, proposal, specification or sample. Intel does not assume (and does not authorize any person to assume on its behalf) any other liability.

Intel may make changes to the Materials, or to items referenced therein, at any time without notice, but is not obligated to support, update or provide training for the Materials. Intel may in its sole discretion offer such support, update or training services under separate terms at Intel's then-current rates. You may request additional information on Intel's service offerings from an Intel sales representative.

8. **LIMITATION OF LIABILITY:** Neither Intel nor its suppliers shall be liable for any damages whatsoever (including, without limitation, damages for loss of business profits, business interruption, loss of business information, or other loss) arising out of the use of or inability to use the Materials, even if Intel has been advised of the possibility of such damages. Because some jurisdictions prohibit the exclusion or limitation of liability for consequential or incidental damages, the above limitation may not apply to you.
9. **UNAUTHORIZED USE:** The Materials are not designed, intended, or authorized for use in any type of a system or application in which the failure of the Materials could create a situation where personal injury or death may occur (e.g., medical systems, life sustaining or lifesaving systems). Should You use the Materials for any such unintended or unauthorized use, You hereby indemnify, defend, and hold Intel and its officers, subsidiaries and affiliates harmless against all claims, costs, damages, expenses, and reasonable attorney fees arising out of, directly or indirectly, such use and any claim of product liability, personal injury or death associated with such unintended or unauthorized use, even if such claim alleges that Intel was negligent regarding the design or manufacture of the Materials.
10. **USER SUBMISSIONS:** This Agreement does not obligate You to provide Intel with materials, information, comments, suggestions or other communication regarding the Materials. However, You agree that any material, information, comments, suggestions or other communication You transmit or post to an Intel website (including but not limited to, submissions to the Intel Premier Support and/or other customer support websites or online portals) or provide to Intel under this Agreement are not controlled by the International Traffic in Arms Regulations (ITAR) or the Export Administration Regulation (EAR), and if related to the features, functions, performance or use of the Materials are deemed non-confidential and non-proprietary ("Communications"). Intel will have no obligations with respect to the Communications. You hereby grant to Intel a non-exclusive, perpetual, irrevocable, royalty-free, copyright license to copy, modify, create derivative works, publicly display, disclose, distribute, license and sublicense through multiple tiers of distribution and licensees, incorporate and otherwise use the Communications and all data, images, sounds, text, and other things embodied therein, including derivative works thereto, for any and all commercial or non-commercial purposes. You are prohibited from posting or transmitting to or from an Intel website or provide to Intel any unlawful, threatening, libelous, defamatory, obscene, pornographic, or other material that would violate any law. If You wish to provide Intel with information that You intend to be treated as confidential information, Intel requires that such confidential information be provided pursuant to a non-disclosure agreement ("NDA"), so please contact Your Intel representative to ensure the proper NDA is in place.

Nothing in this Agreement will be construed as preventing Intel from reviewing Your Communications and errors or defects in Intel products discovered while reviewing Your Communications. Furthermore, nothing in this Agreement will be construed as preventing Intel from implementing independently-developed enhancements to Intel's own error diagnosis methodology to detect errors or defects in Intel products discovered while reviewing Your Communications or to implement bug fixes or enhancements

in Intel products. The foregoing may include the right to include Your Communications in regression test suites.

11. **NON-DISCLOSURE:** The following provisions will apply if there is no existing non-disclosure agreement between You and Intel. You will maintain the confidentiality of the Confidential Information (if any) with at least the same degree of care that You use to protect Your own confidential and proprietary information, but no less than a reasonable degree of care under the circumstances. You will not disclose the Confidential Information to any employees or to any third parties except to Your employees who have a need to know and who agree to abide by nondisclosure terms at least as comprehensive as those set forth herein; provided that You will be liable for breach by any such entity. For the purposes of this Agreement, the term "employee" will include Your independent contractors, who have signed confidentiality agreements with You. You will not make any copies of the Confidential Information except as necessary for Your employees with a need to know. Any copies which are made will be identified as belonging to Intel and marked "confidential", "proprietary" or with similar legend. You will not be liable for the disclosure of any Confidential Information which is (a) generally made available publicly or to third parties by Intel without restriction on disclosure; (b) rightfully received from a third party without obligation of confidentiality; (c) rightfully known to You without any limitation on disclosure prior to Your receipt from Intel; (d) independently developed by Your employees; or (e) required to be disclosed in accordance with applicable laws, regulations, court, judicial or other government order, provided that You will give Intel reasonable notice prior to such disclosure and will comply with any applicable protective order.
12. **TERMINATION OF THIS LICENSE:** This Agreement becomes effective on the date You accept this Agreement and will continue until terminated as provided for in this Agreement. If You are using the Materials under a time-limited license, for example an Evaluation License, this Agreement terminates without notice on the last day of the time period, which is specified in the Materials or on Intel's website, and/or controlled by the license key code for the Materials. Intel may terminate this license immediately if You are in breach of any of its terms and conditions and such breach is not cured within thirty (30) days of written notice from Intel. Upon termination, You will immediately return to Intel or destroy the Materials and all copies thereof. In the event of termination of this Agreement, the license grant to any Materials or Redistributables distributed by You in accordance with the terms and conditions of this Agreement, prior to the effective date of such termination, will survive any such termination of this Agreement. Sections 1, 5, 6, 7, 8, 9, 10, 11, 12, and 14 will survive expiration or termination of this Agreement.
13. **U.S. GOVERNMENT RESTRICTED RIGHTS:** The technical data and computer software covered by this license is a "Commercial Item," as such term is defined by the FAR 2.101 (48 C.F.R. 2.101) and is "commercial computer software" and "commercial computer software documentation" as specified under FAR 12.212 (48 C.F.R. 12.212) or DFARS 227.7202 (48 C.F.R. 227.7202), as applicable. This commercial computer software and related documentation is provided to end users for use by and on behalf of the U.S. Government, with only those rights as are granted to all other end users pursuant to the terms and conditions herein. Use for or on behalf of the U.S. Government is permitted only if the party acquiring or using this software is properly authorized by an appropriate U.S. Government official. This use by or for the U.S. Government clause is in lieu of, and supersedes, any other FAR, DFARS, or other provision that addresses Government rights in the computer software or documentation covered by this license. All copyright licenses granted to the U.S. Government are coextensive with the technical data and computer software licenses granted herein. The U.S. Government will only have the right to reproduce, distribute, perform, display, and prepare derivative works as needed to implement those rights.
14. **GENERAL PROVISIONS**
  - A. **ENTIRE AGREEMENT:** This Agreement contains the complete and exclusive agreement and understanding between the parties concerning the subject matter of this Agreement, and supersedes all prior and contemporaneous proposals, agreements, understanding, negotiations, representations, warranties, conditions, and communications, oral or written, between the parties relating to the same subject matter. This Agreement, including without limitation its termination, has no effect on any signed non-disclosure agreements between the parties, which remain in full force and effect as separate agreements to their terms. Each party acknowledges and agrees that in

entering into this Agreement it has not relied on, and will not be entitled to rely on, any oral or written representations, warranties, conditions, understanding, or communications between the parties that are not expressly set forth in this Agreement. The express provisions of this Agreement control over any course of performance, course of dealing, or usage of the trade inconsistent with any of the provisions of this Agreement. The provisions of this Agreement will prevail notwithstanding any different, conflicting, or additional provisions that may appear on any purchase order, acknowledgement, invoice, or other writing issued by either party in connection with this Agreement. No modification or amendment to this Agreement will be effective unless in writing and signed by authorized representatives of each party, and must specifically identify this Agreement by its title (e.g., "End User License Agreement for the Intel(R) software and version, i.e., March 2015). If You received a copy of this Agreement translated into another language, the English language version of this Agreement will prevail in the event of any conflict between versions.

- B. **EXPORT.** You must comply with all laws and regulations of the United States and other countries governing the export, re-export, import, transfer, distribution, use, and servicing of Software. In particular, You must not: (a) sell or transfer Software to a country subject to sanctions, or to any entity listed on a denial order published by the United States government or any other relevant government; or (b) use, sell, or transfer Software for the development, design, manufacture, or production of nuclear, missile, chemical or biological weapons, or for any other purpose prohibited by the United States government or other applicable government; without first obtaining all authorizations required by all applicable laws. For more details on Your export obligations, please visit <http://www.intel.com/content/www/us/en/legal/export-compliance.html?wapkw=export>.
- C. **GOVERNING LAW, JURISDICTION, AND VENUE:** All disputes arising out of or related to this Agreement, whether based on contract, tort, or any other legal or equitable theory, will in all respects be governed by, and construed and interpreted under, the laws of the United States of America and the State of Delaware, without reference to conflict of laws principles. The parties agree that the United Nations Convention on Contracts for the International Sale of Goods (1980) is specifically excluded from and will not apply to this Agreement. All disputes arising out of or related to this Agreement, whether based on contract, tort, or any other legal or equitable theory, will be subject to the exclusive jurisdiction of the courts of the State of Delaware or of the Federal courts sitting in that State. Each party submits to the personal jurisdiction of those courts and waives all objections to that jurisdiction and venue for those disputes.
- D. **SEVERABILITY:** The parties intend that if a court holds that any provision or part of this Agreement is invalid or unenforceable under applicable law, the court will modify the provision to the minimum extent necessary to make it valid and enforceable, or if it cannot be made valid and enforceable, the parties intend that the court will sever and delete the provision or part from this Agreement. Any change to or deletion of a provision or part of this Agreement under this Section will not affect the validity or enforceability of the remainder of this Agreement, which will continue in full force and effect.
